

Sherford BioBlitz

26th July 2023

Pollenize

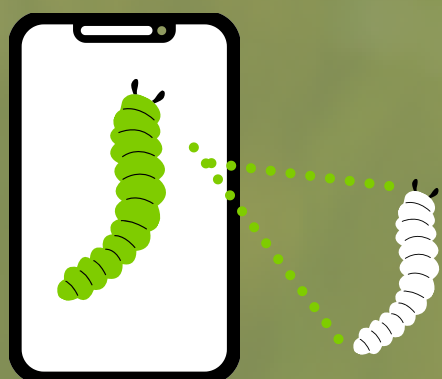

SHERFORD
BUILDING FUTURES
EST. 2015

Help us to collect data so we can track & improve biodiversity

HOW IT WORKS...

1.

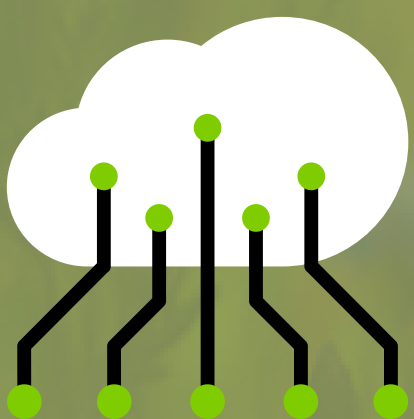

Take pictures of your observations of plants, fungi and animals around the area

2.

Ensure that your photos are of good quality (clear, high resolution) and upload your findings to the iNaturalist app

3.

This data can be used to identify gaps in the biodiversity of your area

4.

Pollenize will use this information to create tailored seed prescriptions to improve biodiversity

If you would like to attend the bioblitz please contact
Amy Cooper - Sherford Residents :
