3. RIO update: Articles/Lottery Heritage Fund Ed had circulated the final version of the Articles; the tracked changes were agreed at the meeting on the 20 th September. Directors are now in receipt of the final set for agreement. Andrew confirmed that, once these final points are agreed upon, then he will tidy them up and draw up a succinct, intelligible set for distribution. Andrew talked Directors through the remaining points relating to the Membership fee, Service charge and CLT fee. These areas were discussed at length, and all agreed that there should be no index-linking for the membership fee and the service charge will not have an upper limit set. If the CLT takes on the management in the future, then an agreed limit can be set at that time. It was clarified that the CLT fee stands separate to the service charge as a fee which covers the cost of manage and running the CLT. Any changes cannot be applied retrospectively. It was agreed that Directors will pass a resolution at the next meeting to limit the CLT fee to £40pa (index-linked to CPI) for a certain number of years and there would be a policy in place to review this annually. It was stressed that Directors have an obligation to act in the best interest of the Company. It was agreed that all Directors will move forward with a vote on the final version from Andrew at the next meeting. The new Articles would then be registered at Companies House. Ed talked through the Lottery Heritage fund which the Trust is applying for. It will include a number of talks and environmental workshops, along with developing connections with local experts such as the Box and drawing up a longer-term Heritage Plan for Sherford. One more letter of support is needed and then the application is ready to send. The amount applied for is just below the £10k limit.

As requested, the lead contact had provided the breakdown of costs and how the project would be phased. They are seeking other funding for the full £3k. The application to the Trust was for £1,000.
